

Butterfly Blitz

Come enjoy a day made for butterflies.

10am

Don Gorney, of Indianapolis, will be at Chain O'Lakes as part of an annual butterfly count. Don is a former Chain O' Lakes naturalist and a butterfly expert. He has graciously agreed to do a butterfly field program at 10am Friday morning. We will meet at the nature center parking lot and go butterflying (if bird watchers go birding....) in the field. There will be other butterfly enthusiasts along to help us out.

2pm

We will have a program about butterflies in the nature center. This will be followed by a make and take craft for the kids.
